

BUILT SMART, MADE SIMPLE.

Touch is the latest in heating control technology and has been developed with both installers and homeowners in mind. Developed by our in-house design team in Hull, Touch is both easy to install & simple to use.

Compatible with Ideal Logic, Logic+ and Vogue boilers, Touch is a fully wireless device that's simple to install and needs no hard wiring. In fact, it can be installed in less than five minutes!

FEATURES & BENEFITS

EASY TO INSTALL

Touch is so easy to install, you could be up and running in less than 5 minutes! Touch doesn't require any hardwiring, just click the transceiver into the boiler, the device will automatically pair, and you're good to go!

IMPROVES EFFICIENCY

Touch controls the room temperature accurately to prevent overheating, this way gas bills are kept as low as possible by maintaining high system efficiency along with comfortable conditions.

COLOUR TOUCH SCREEN

We know that when it comes to heating controls - simplicity is key. With a colour touch screen which enables you to quickly set heating programmes, including holiday schedules, controlling your heating couldn't be easier.

INSTALLER CONNECT

Just like our Logic, Logic+ and Vogue boilers, Touch controls can be registered on Installer Connect for warranty and reward points.

CLICK & CONTROL
IN A MATTER OF MINUTES WITH
NO NEED TO HARDWIRE.
